Post-cath meeting presentations.	
Grand Round/clinical meeting presentations	
Mandatory courses/Workshops attended	
Conference/Seminar/Symposium attended	
Papers/Posters presented in conferences	
Papers/Abstracts published in BMDC approved journals	
V. Leave Record	
VI. Summary	

Essential Information for Using this Logbook

Objectives of the Logbook:

The purpose of the logbook is to provide one source of evidence for the University that a trainee has attained the desired level of competency required to sit for the MD (Cardiology) Phase B Final Examination. It is the record where Residents are going to document experiences and skills they will attain during their training. Residents should use a logbook to maintain records of their experience in bedside diagnostic and therapeutic procedures and attendance at educational activities. The Supervisors will periodically review the Logbooks to assess training progress and recommend remedial action where appropriate.

Instructions to the Residents:

Personal Information:

Please fill in all your personal information required. This will help the University to process your Logbook by the Course Director before sitting for the final exam. Your photograph should be attached to the logbook and you should sign the personal information page.

Registration with BSMMU:

Before starting training you have to be registered with the Registration Department of BSMMU.

Clinical Case Log:

1. You will find a list of clinical problems to be managed during your training period. Your level of competence/performance in each case will be determined by your supervisor.

2. You need to mention the provisional or final diagnosis or the problems the patient had for each patient.

3. For each case write the date of the admission.

4. Each case entry should be signed by your supervisor. His signature is the proof of your actual participation.

Procedures' Log:

- 1. The logbook contains tables for required procedures to be done during different stages of training and the level of desired competency/performance at each stage.
- 2. Your supervisor should sign each procedure to document the event.

Academic Activities:

1. Academic activities that must be documented in the logbook are lectures, journal clubs, morbidity and mortality review meetings, and workshops or other conferences attended.

2. It is preferable that you and your supervisor determine the scientific content of the journal club based on your learning needs.

3. You are to record Mandatory Courses/Workshops and Conferences/Seminar/Symposium where you will record your CME activities whether inside or outside the training centre. Any attended activity must be signed by the workshop or conference organizer / coordinator.

Rotation / Block Training:

Faculty of Medicine of BSMMU has determined specific training rotations that you must go through during the training period (see your curriculum for details). After you finish each rotation make it signed by the Supervisor and countersigned by the Course Coordinator and chairman of the department.

Leave record:

Every leave application when forwarded by the supervisors should be entered in the leave record section of the book

Assessment of Logbook Activities:

- 1. Your supervisor will assess your logbook monthly to assess training progression and provide verbal or written feedback.
- 2. Your supervisor will send the End of Block Assessment Report (EBAR) to the Course Coordinator of the training department who will subsequently sent the report to the Course Coordinator of the Parent Department. The Course Coordinator will send a copy of the Report to the Course Director through respective Chairman.

Important notice:

- It is your responsibility to maintain an accurate logbook and to regularly update your records.
- Shall you meet any difficulty, you must contact your supervisor/Courtse Coordinator or the Course Director.
- Unsatisfactory completion of the logbook would lead to delay of training progression.
- Unsatisfactory logbook at the end of training will prevent you from entering the Phase A final examination.
- It is the responsibility of the resident to keep the logbook safe and secured

<u>Guidelines for the Supervisors:</u>

- 1. The logbook is a day to day record of the clinical and academic work done by the Resident.
- 2. It is the responsibility of the supervisor to indentify and inform the Resident of the area in which he/sher is lacking and provide opportunities to improve the competence.
- 3. Supervisors or his/her designated consultant/trainer should sign the completed events on that particular day in the appropriate column of the Logbook.

Levels of Competence/Performance:

The level of competence/performance at which a skill is performed by the trainee should be recorded in the given column of the Logbook.

For Patient Management:

- Level 1: Assisted Level 2: Managed under supervision Level 3: Managed independently
- For Procedures:
- Level 1: Observed/Assisted
- Level 2: Performed under supervision
- Level 3: Performed independently

Note:

All entries in the Logbook should be verifiable and the Course Director reserves the right to demand evidence in the form of hospital records in order to verify the data provided in the record sheets
